

Fieldwork – excavation

**Rodafnidia, Palaeolithic open-air site, Lesbos Island, 27 July – 31
August 2021**

Panther Cave, Meganisi Island, 8-22 October 2021

Undergraduate and master students wishing to participate in the excavation research projects in Rodafnidia-Lesbos Island and the Panther Cave-Meganisi Island, please send an expression of interest here galanidou@uoc.gr accompanied with the following information:

Full name, national ID number, student ID number, current year of studies, home address, phone number, certificate of studies (pdf), and the research project they would be interested to participate in. Three weeks minimum participation in the Lesbos fieldwork. Travel, accommodation, and subsistence expenses will be covered by the project.

Research will be conducted given that the progress of the COVID-19 pandemic permits it and following all required measures and restrictions for personal and collective protection.

Director of research,

Nena Galanidou
